

WORLD CHAMPIONSHIP

All Ages

ITALY 2022

SPORTS HALL PALAMARE

CAORLE - VENICE

27 - 30 OCTOBER 2022

ORGANIZATION

PATRONAGE

WELCOME GREETING

The City of Caorle - Venice, the Municipality and me in person are glad to give a warm welcome to all the IKU Karate athletes.

Despite the hard times due to the pandemic situation, they come from all over the world to take part in this sporting event, which involves not only the Italian Karate Federation and sport in general but also my City, which can boast of hosting a lot of tourist and sports events all over the year. We are thankful to the FIK and to its president Riccardo Mosco for reconfirming Caorle and its sports facilities in the organization of their activities.

Caorle has improved over time, so much as to gain the full-fledged epithet of City of Sport. Such a result is due to our willingness to invest in the sports facilities

and in the sports area. We believe that sport is a training ground for life: it requires commitment, effort, perseverance and teaches not to give up in the face of challenge. We are proud that Caorle has succeeded in being the ideal place for organizing national and international events, hosting a large number of athletes in first-rate sports complexes.

On the other hand, the Municipality cares about the sports training of its young citizens and collaborates actively with the local sports associations and with the schools. Our aim is to give to all, even to little children, the opportunity to approach the world of sport, as we consider it a valuable educational experience, not only for the physical but also for the inner well-being.

Finally I wish all the best to the IKU Karate Athletes. I am confident that their effort and dedication will be rewarded by a successful performance. I invite you to experience our town and our territory: it is not only rich in history, culture and traditions but also very friendly and welcoming.

The Mayor of Caorle

Marco Sarto

CAORLE: historic village by the sea

A few kilometres from Venice, Caorle is ideal for a relaxing summer holiday - here you can enjoy not only golden sandy beach, but also local traditions, vibrant history and beautiful natural scenery.

In the past it was a fishermen's village and still nowadays fishing is practised by its inhabitants. At the harbour you can watch working fishermen using skills handed down through the generations, see them unload and sell their day's catch at the traditional "ear fish auction". The fresh fish can be tasted later in the small restaurants of the centre, insofar as Caorle can be considered the Top Gourmet Destination of the Upper Adriatic. Its cuisine is based on typical, locally sourced products, prepared according to traditional recipes. Top dishes to taste: The Musky Octopus, White Queen Scallops and Organic Clams.

Its *calli* (narrow streets), its *campielli* (small squares), the colourful houses and canals, now underground, remind us of Venice. The heart of its historic centre is undoubtedly Piazza Vescovado, where the Cathedral and the unique cylindrical bell tower dated back to the 11th century testify to the ancient origins of this locality. The town boasts one of the most fascinating promenades in Italy: ScoglieraViva - an open-air museum.

The cliffs end with the Sanctuary of the Madonna dell'Angelo: a small church built on a headland facing out to sea, protector of fishermen and source of miracles and legends.

In Caorle the delicate balance between man and nature has always been safeguarded: this is testified by its lagoon, Site of Community Importance, where you can glimpse the *Casoni*, old fishermen's shelters built from wood and reed. it is the ideal environment for nature lovers, where it is possible to watch a diverse flora and fauna and enjoy the natural landscape with a wide network of cycle paths.

THE SPORTS ARENA "PALAMARE VALTER VICENTINI"

Capacity : 2500 people

It is a multi-functional Sports Arena designed to host international events of different disciplines, including basketball, volleyball, handball, five-a-side football, karate and fencing. It can welcome up to 2500 spectators (on 4 stands in concrete and on the parterre with two visitors' galleries) and it also hosts non-sporting events such as concerts, theatre performances, exhibitions and conferences.
